

# PREMIERE 4™

### BEST IMPAIRMENT RATING SOFTWARE FOR EXPERT MEDICAL EVALUATORS

Wholeperson® Premiere 4 is the most comprehensive Impairment Rating program offered since 1996.

It is designed for physicians who conduct impairment evaluations, providing an accurate, fast, efficient and defensible Impairment Rating report

There is special focus on orthopedic and neurological issues since these are the most common injuries needing an impairment rating evaluation.

#### Features include

- On-screen prompts
- Pictures
- Guidelines
- Validity criteria and standardized evaluation protocols based on the injury or diagnosis

#### These features provide

- Increased productivity = increased revenue
- An accurate, defensible and comprehensive IR report conforms to the accepted AMA Guides 4<sup>th</sup> edition.

Wholeperson® Premiere 4 contains over 100 separate, body-specific evaluation modules and help screens. The software features allow the evaluator to combine several separate evaluations into one comprehensive report.

States that require the AMA 4<sup>th</sup> edition: AL, AR, ME, MD, TX, WV
